Merchandising Solutions	4		

FULL MERCHANDISING SOLUTIONS ARE AVAILABLE

We work closely with our customers to help support them with the conversion to an Owlett-Jaton merchandised store.

Our Area Sales Managers have many years of experience in the field and can recommend and tailor a range of products that best suit your requirements.

Our Merchandising Representatives first assess the store area to be addressed and determine which configuration works best, ensuring that products are available and engaging at the point of sale. They will then oversee the building and positioning of the stands, along with loading them with stock. They will oversee all of the physical aspects of the project* whilst minimising disruption.

We offer an easy and efficient stock-cleansing service, to help customers seamlessly change over from another brand to ours.

Our after-sales support includes representatives making regular visits to replenish stock and ensure the display remains looking its best.

* Excluding fixing the stand down.
