

Hexstone Limited warrants to the best of its knowledge and barring exceptions listed in this statement of conformity that all standard alloy, stainless steel and brass (see exemption below) fasteners supplied by Hexstone Limited comply with the UK RoHS Regulation (1 January 2021).

These hazardous substances encompass within the UK directive are as follows:

- | | |
|--|--------------------|
| • Lead (Pb) * | < 0.1% or 1000 ppm |
| • Mercury (Hg) | < 0.1% or 1000 ppm |
| • Cadmium (Cd) | < 0.01% or 100 ppm |
| • Hexavalent chromium (Cr6+) * | < 0.1% or 1000 ppm |
| • Polybrominated biphenyls (PBB) | < 0.1% or 1000 ppm |
| • Polybrominated diphenyl ether (PBDE) | < 0.1% or 1000 ppm |
| • Bis(2-ethylhexyl) phthalate (DEHP) | < 0.1% or 1000 ppm |
| • Butyl benzyl phthalate (BBP) | < 0.1% or 1000 ppm |
| • Dibutyl phthalate (DBP) | < 0.1% or 1000 ppm |
| • Diisobutyl phthalate (DIBP) | < 0.1% or 1000 ppm |

(%) maximum concentration values tolerated by weight in homogeneous materials.

Exceptions *

Products finished Zinc and subsequently coated with a yellow passivate; the yellow passivate contains a small quantity of Hexavalent Chromium <0.01%, concentration dependant on product type and size; alternative coating should be considered.

Lead as an alloying element in steel and copper alloys (including brass) for machining purposes.
